

Connecting to Classweb from your Computer

Cyberduck Installation

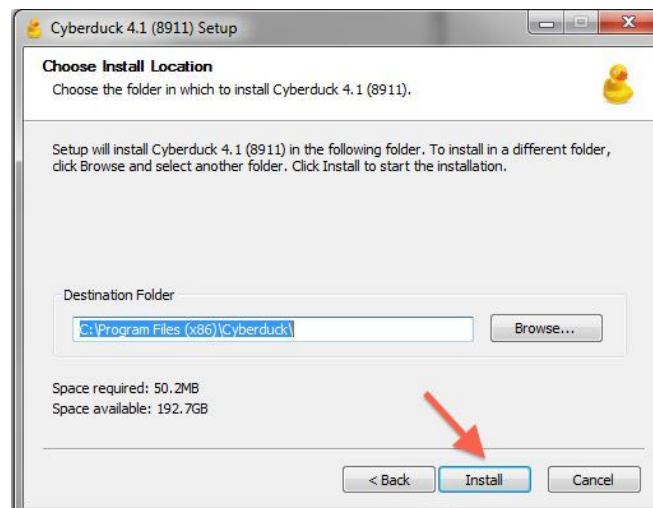

MacOS

1. Visit <http://cyberduck.io/download>. Then, click “Download Cyberduck for Mac” to download.
2. Double click on the .zip to extract the Application file. (Note: Safari may automatically unzip the file. If that’s the case, you may skip this step)
3. Drag the “Cyberduck” application to your Applications folder.

Windows

1. Visit <http://cyberduck.io/download>. Then, click “Download Cyberduck for Windows” to download.
2. Double click the .exe file and click “Next”. Then, click “Install”.

Connecting to Classweb Using SFTP

Cyberduck

1. Click the “+” at the bottom left of the window.
2. From the drop-down menu choose “SFTP (SSH File Transfer Protocol).” Then enter the following settings:

Server: classweb.acs.unt.edu

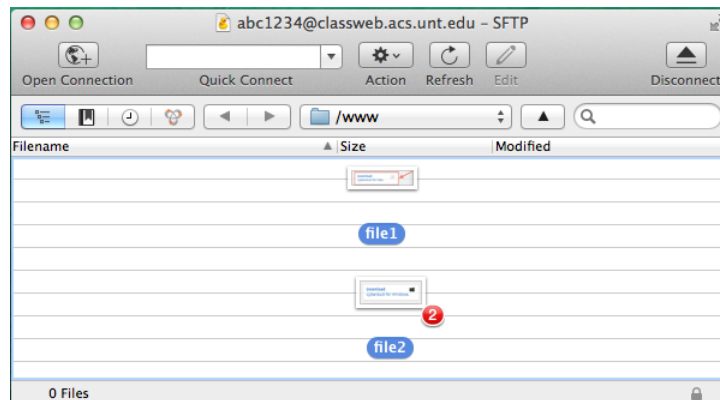

Port: 22

Username: your UNT EUID (ex. aaa0001)

Path (located under “More Options”): www

Then, close the connection window.

5. Double click on the “classweb.acs.unt.edu - SFTP” connection
6. Enter your UNT password (if prompted)
7. Your site should now open in Cyberduck, allowing you to drag and drop files.

CONNECTION INFO

- You may be prompted to Allow an “Unknown host key for classweb.acs.unt.edu”. Click “Allow”

FILE RESTRICTIONS

- File Size Limit: Individual files are limited to 2mb in size.
- File Type Restrictions: Executable files (.exe) are restricted.
