Using Duo MFA with the VPN

AnyConnect Client for Laptop or Desktop

1. Open your VPN client

2. Make sure that the address for your VPN is vpn.unt.edu if you are working at UNT or UNT System and vpn.undallas.unt.edu if you are working at UNT Dallas

3. Click the Connect button

4. Type in your EUID in the Username field and your EUID Password into the Password field

5. Click OK button

6. Click the Accept button
7. Depending on your choice of how to use MFA, you will be prompted to approve access from either a phone call or Duo push.

8. Using the Duo push notification you will likely get a prompt on your phone or device.

9. Go into the Duo Client.

10. You will see that it displays your location and your EUID as well as Deny and Approve buttons.

11. If you have attempted to login, click the Approve button, otherwise click the Deny button.
If you approved the access, then you will be granted access to the VPN.

Open a browser to vpn.unt.edu or vpn.untdallas.unt.edu
2. Type in your EUID in the EUID field and your EUID Password into the Password field.
   Click the Login button.

3. Depending on your choice of how to use MFA, you will be prompted to approve access from either a phone call or Duo push.

4. Using the Duo push notification you will likely get a prompt on your phone or device.

5. Go into the Duo Client.
6. You will see that it displays your location and your EUID as well as Deny and Approve buttons
7. If you have attempted to login, click the Approve button, otherwise click the Deny button
8. If you approved the access, then you will be granted access to the VPN.
